PROFESSIONAL SUMMARY

MCA Graduate (2026) with a strong foundation in Python, React.js, MySQL, PL/SQL and web development. Skilled in building responsive applications and integrating APIs, with Django and REST API development currently in progress. Seeking an entry-level Python Developer, Software Developer or Full Stack Developer role where I can apply my technical skills and continue growing through practical development work.

TECHNICAL SKILLS

Programming: Python, JavaScript

Libraries: Pandas, NumPy

FrameWork: Django (Learning), Flask (Learning), Fast API(Learning)

Database: MySQL, PL/SQL, MongoDB

Visualization: Matplotlib

API: REST API, API Integration

Frontend: HTML, CSS, Bootstrap, tailwind

Tools: Version Control (Git), GitHub, Streamlit, Jupyter Notebook, Excel, VS Code, Google Colab, Google Maps

PROJECTS

React Weather Application

- Responsive weather application developed using React.js, Bootstrap and OpenWeather API.
- Provides city search and displays real-time temperature, humidity, wind speed and other weather details.

GitHub: github.com/debaprasad-dev/react-weather-app

Student Management System

- **React.js dashboard for managing student records with CRUD operations and a responsive user interface.**
- Structured for future Django backend integration.

GitHub: github.com/debaprasad-dev/student-management-system

INTERNSHIP

Python Full Stack Development – Naresh IT

- Developed practical skills in Python, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS and React.js.
- Worked with Django, Flask and FastAPI for backend and API development.
- Gained hands-on experience with MySQL, MongoDB, Pandas and NumPy through practical exercises and projects.

EDUCATION

Master of Computer Applications:

PRESIDENCY COLLEGE

Berhampur, Odisha

CGPA:7.91 | 72%

CERTIFICATIONS

- Google Analytics Academy
- Full Stack Development — Naresh IT

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Data-Driven Decision Making
